

Only two weeks until the w/92,
Segment 3 kickoff workshop!

Kickoff community workshop

Please join us for the first of two community events for Segment 3 of the West 192 Redevelopment Plan, as shown on the map below.

This presentation will offer attendees a chance to identify comparable corridors with applicable design elements. The results of this exercise will help craft the alternative visions for this segment of the corridor.

The overall planning effort will focus on identifying programs and projects that can enhance the area's appeal and attract new investments. This is a community-based initiative with continuing opportunities throughout the planning process for the property and business owners to provide policy direction.
